Education

High School Diploma

Basic Education High School, Kyaikkhami

Self-taught & Online Courses

Online Courses in Full Stack Development (Ongoing)

Skills

- Next.js / React / React Native
- HTML / CSS / JavaScript
- Tailwind / Bootstrap
- Python / Django / DRF
- REST API / GitHub
- SQLite / MySQL (basic)
- Android Studio / cPanel
- Docker / CI-CD (basic)

Language

- **Burmese (Native)**
- **English (Upper Intermediate)**

About me

Junior Full Stack Developer with hands-on experience building real-world web applications using Next.js, Python (Django), and REST APIs. Strong in backend business logic, system workflows, and authentication (Social Login, OTP, JWT). Motivated to grow in a fast-paced engineering team and contribute to scalable, production-ready systems.

Projects / Experience

- **Budget Tracker (Next.js + Django API)**

  - Separated frontend/backend (two repos)
  - accounts/api modules + SQLite dev storage
  - Live: budget-tracker-jet-pi.vercel.app + buget-tracker-api.vercel.app

- **Fashion E-commerce Platform (Next.js + Django + DRF)**

  - API-driven architecture (UI → REST API → Django → Database)
  - Variants (size/color/SKU) + warehouse stock + order workflow
  - Auth: Social Login + OTP + token/JWT

- **Air Conditioner Service Management System (Django + DRF)**

  - Role-based lifecycle workflows
  - 24-hour auto-cancel automation
  - Scheduling/assignment/status APIs

- **Restaurant Ordering System (Django + JavaScript)**

  - Menu + cart + ordering flow
  - UI integrated with backend APIs
  - Backend validation + data handling

Certifications

- Web Development Foundation — Hit Myanmar
- Special Frontend Development — Hit Myanmar
- Backend Development — Hit Myanmar
- Full-Stack Web Development — Code-Lab
- Full-Stack Web Development with Python &Django — DynamixWave
- Modern Front-End Development with React — DynamixWave
